

## Foundation 2 Spring 2 Home Learning Challenges

### PARENTS AND CARERS!

Please help your child to choose a challenge to complete. Try to aim for one new challenge a week along with ongoing skills practice e.g. reading books, flashcards, counting skills, name writing. Collect your points to earn an award! When you have completed each challenge, you can tick the box to show it has been completed and then shade the correct number of points on the bar chart. It would also be great to hear how your child got on with the challenge and how much support was given, so please feel free to write a comment on the corner of the page. Some challenges may take a little longer so feel free to revisit them over a few weeks. You can record your homework in your book or post a picture on Tapestry!  
Books will be collected in every **Wednesday** and they will be checked and returned every **Friday**. How many points can you earn?

Post a photograph/video of something you are proud of onto Tapestry (please ask for help if needed). It might show something special that has happened in your life or show something you have achieved for the first time. It might show you playing in role or being creative, being a good friend or using your maths, reading or writing skills. Please type a short comment about what you are doing!										
2 points - this challenge can be completed 2 times										
Write a diary about what you have been doing at the weekend. Tell me where you have been and what you have seen. You could draw some pictures too! Remember to sound out each word, start your sentence with a capital letter and end it with a full stop.			Share a story <b>3 times a week</b> , this could be your reading book or a story you already have at home. Discuss some of the key vocabulary of the book. Did you enjoy the story? Why? Make sure the person you read with records it in your reading record!			Read the story of the very hungry caterpillar with your child. Ask them to re-tell you the story, video this and put it on Tapestry.			We are learning numbers from 10-20. How many of these numbers can you see on your street? Can you find any of these numbers on the way to school? Can you place these numbers in order?	
5 points to be completed once.				1 point for each week you do this (6 weeks)				4 points - can be completed once		4 points to be completed once.
Practise your tricky words. Make sure to look, write, cover, write and check. How many can you spell? Can you put your tricky word into a sentence?			Numbots. Log on to your account and complete 10 minutes a week to help you with your maths.			<u>Research a species of caterpillar.</u> Find out key information about your caterpillar. What do they eat? What butterfly do they turn into? How long does it take them to change? What did you use to find out this information?			Next half term our topic will be 'Our bodies'. Our key question will be 'How can I stay healthy?' What do we eat that is healthy? What do with our bodies to be healthy? Find pictures on the internet or in books.	
1 point -can be completed 2 times.				1 point to be completed 3 times						
Teach your monster to read, Log on to your account and complete 10 minutes a week to help you with your sounds and reading.										
1 point to be completed 3 times
